Ride Engineering 2025 CRF450r

BRAKE ACCESSORIES

270mm Oversized Rotor Kits – 270mm Rotors- 270mm Hanger Brackets

Our 270mm Non-Floating Wave Rotor is made from a special grade of stainless/iron alloy material imported from Japan and is a favorite among top level motocross racers. All the hanger brackets are precision machined by Ride Eng. and made locally in the USA.

BRAKE ACCESSORIES

Billet Front Brake Caliper V2

Increases stopping power with a more progressive feel and better modulation between the rider's input and front tire traction. We've achieved this with larger pistons, reducing flex and providing large fins for better cooling. V2 is easier to bleed making installation faster and it reduces drag on the front wheel.

Appl: '02-'25 Honda CR125/250/CRF250R/CRF250RX
CRF450R/450RX/CRF250X/450X Note: only fits '19+ models with CR-00270-KT or '18 OEM brake hanger bracket)

2024 CRF450r complete master cylinder assembly for Yamaha or KTM/HUS/GAS applications to operate the Ride Engineering billet brake caliper.

MX-CRM11-RA

\$280.00

Honda Braided Steel Brake Line

Improves stopping power and reduces fade over the stock plastic line. Why? Because expansion is close to zero under all riding conditions. Our lines are made from extremely flexible Dupont Teflon steel. They will never crack or leak for the lifetime of your motorcycle. '04+ CRs & CRFs require Brake-line Clamp (page 3) for installation.

Appl: '90-'08 CR125r/250r

Billet Engine Kill/Starter Switch, Dual Switch & Throttle Housing Switch

Replaces the stock engine kill switch on all off-road motorcycles. Integrated into the clamp that holds the clutch lever or front brake master-cylinder; this item eliminates one component completely off the motorcycle. For those that ride electric start motorcycles, a second switch can be added to eliminate the stock start button!
